

PORTABLE VOC METER

EASE OF USE

- Easy access sensor, electrode stack and lamps
- Large clear touch screen display
- Screen backlit in low light conditions

BEST AVAILABLE PHOTOIONIZATION (PID) DETECTION TVOC

- Parameter measured - TVOC
- Dynamic range 0 to 10,000 ppm
- Measurement unit - ppm, mg/m³
- 20 Gases can be customized out of 750 gases
- PID independently verified as best performing on the market
- Humidity resistant and anti-contamination design
- Fast response time and clear down

HUMIDITY

- 0-99% RH (non condensing)

LAMPS

- 10.6 eV Krypton PID lamp (standard)

SUCTION CAPACITY

- Inbuilt pump with 15ft capacity with probe

DATA LOGGING

- 5 Years data logging with 1 minute interval (with date & time

BATTERY

- Lithium Ion battery pack with 6 to 8 hours backup in standard condition.
- Battery charging time Max 1.8 hrs.
- Backup hours can be customized upto 48 hours

CALIBRATION

- 3 Point calibration (4 point calibration on demand)

COMMUNICATION

- USB

OPTIONAL ACCESSORIES

- SS probe with 3 mtr tubing
- Specialized designed filter for high Moisture & PM
